ABOUT K.COOPER JEWELRY DESIGNS

K.Cooper Jewelry was created by a portrait photographer who was looking for a new and exciting product to offer her clients. Karen Blough formed the company in the spring of 2005 for her photography studio, Cooper Image Design in Iowa. K.Cooper takes pride in it's selection, quality and customer care. Enjoy!

SIZING TIPS

Necklaces

Use a piece of string or floss and hold it around you neck to see where you want the necklace to fall. Then measure the string length. Some of our necklaces have an option to add an extender so your measurements would be the length without the extender.

Bracelets

We have a bracelet sizing page that will help guide you in your decision. Please ask your photographer for help with your size.

EXPRESS line

Regular turn around is 4-6 weeks to assure quality pieces to our customers. We are able to turn around items in our express line in only 2-3 weeks. Just look for the express logo after the item name!

JEWELRY CARE

To keep your piece looking the best, avoid wearing it in a pool, hot tub, or salt water. It is also a good idea to remove the piece when bathing or showering. Try to avoid spraying it with perfume, hair spray, or household cleaners. If necessary, use a sterling silver polishing cloth to restore shine to your piece.

BLUES ROCK
